

Project P08 - Regulatory Reporting Data Warehouse

ID: P08 | version: v1 | asset_type: project | language: en
sector: Banking | duration: 18 months
stack: SSIS, SQL Server, Azure, Power BI

Client

Retail bank H

Description

ETL chains and dimensional model for regulatory reporting and financial steering.

Measurable result

Reporting close time down 50%

Context

Retail bank producing regulatory and finance reports through manual, spreadsheet-based consolidation.

Challenges

Strict audit requirements, long close cycles and inconsistent KPI definitions.

Solution

SSIS load chains into a dimensional SQL Server model with a governed Power BI semantic layer.

Deliverables

- Dimensional data model
- SSIS load chains
- KPI catalogue
- Power BI reporting pack

Team

- C04 - Yassine Gharbi - Junior ETL developer
- C05 - Claire Fontaine - BI lead
