Summary

Data engineer with 5 years building Databricks and Azure pipelines and industrialising batch and streaming workloads.

Skills

Data & Cloud: Databricks, Azure, Azure Data Factory, Delta Lake, SQL, Git
AI / ML & LLM: PySpark, Python
Integration & Orchestration: Apache Kafka

Languages

French — Fluent; English — Fluent; Arabic — Native

Project experience

P03 - AI Demand Forecasting Dashboards (2024)

Context: Consulting mission · Data engineer

- Built Delta Lake pipelines in Databricks feeding forecasting models and Power BI.
- Orchestrated ERP extractions with Azure Data Factory and added freshness monitoring.

P10 - Toll Flow Anomaly Detection (2025)

Context: Consulting mission · Streaming data engineer

- Implemented Kafka to Databricks streaming ingestion for transaction and image metadata.
- Tuned micro-batch jobs to surface anomalies 3x faster.

Leadership & volunteering

Women in Tech Tunisia (fictional) - Mentor (2023 – Present)

- Mentors 4 students on data engineering career paths.

Education

National Engineering School (generic) - Engineering Degree in Data Engineering (2016 – 2019)

Certifications

Azure Data Engineer Associate (DP-203) - Microsoft (Dec 2022)

Databricks Certified Data Engineer Associate - Databricks (Aug 2023)
