

Project P06 - Commerce Cloud and ERP Integration

ID: P06 | version: v1 | asset_type: project | language: en
sector: Fashion / Luxury | duration: 11 months
stack: Commerce Cloud, MuleSoft, Apex, Flow

Client

Luxury house F

Description

Connection of online store, ERP and logistics with omnichannel orders and returns.

Measurable result

Order processing time down 35%

Context

Luxury house launching an omnichannel online store connected to legacy ERP and logistics systems.

Challenges

Order status consistency, returns handling and peak-season load.

Solution

MuleSoft integration layer with idempotent order flows, retry patterns and Commerce Cloud customisations.

Deliverables

- Integration architecture
- Order and returns APIs
- Commerce Cloud configuration
- Monitoring and alerting setup

Team

- C01 - Karim Belhadj - Integration architect
- C15 - Sophie Delattre - Salesforce architect
