

Project P11 - Stock and Customer Service on Salesforce

ID: P11 | version: v1 | asset_type: project | language: en

sector: Retail | duration: 9 months

stack: Service Cloud, Boomi, Apex, LWC

Client

Sporting goods retailer K

Description

Store stock tracking, customer tickets and ERP synchronisation.

Measurable result

Ticket resolution time down 28%

Context

Sporting goods retailer handling store stock questions and customer tickets across separate tools.

Challenges

Stock data delays and tickets lacking store context.

Solution

Service Cloud case handling with Apex and LWC screens showing store stock, synced with the ERP via Boomi.

Deliverables

- Service Cloud configuration
- Boomi ERP synchronisation
- Lightning stock screens
- Support dashboards

Team

- C03 - Mathieu Vasseur - Integration consultant
