

Capability stack STK-02 - Data Platform and Cloud

ID: STK-02 | version: v1 | asset_type: stack | language: en
category: Data & Cloud

Description

Building cloud warehouses, lakehouses and pipelines with versioned infrastructure and quality controls.

Technologies

- Snowflake
- BigQuery
- GCP
- Azure
- Azure Data Factory
- Databricks
- Delta Lake
- dbt
- SQL Server
- PostgreSQL
- Terraform
- Docker
- SQL
- Git

Use cases

- Customer 360 warehouse
- ETL to ELT migration
- Streaming ingestion for anomaly detection
