

Capability stack STK-04 - AI, Machine Learning and LLM

ID: STK-04 | version: v1 | asset_type: stack | language: en
category: AI / ML & LLM

Description

Developing predictive models, NLP and GenAI systems and deploying them with monitoring.

Technologies

- Python
- PyTorch
- scikit-learn
- XGBoost
- MLflow
- NLP
- LLM
- RAG
- Vector DB
- Elasticsearch
- OpenCV
- Anomaly detection
- PySpark

Use cases

- Churn prediction
- RAG assistants
- Anomaly detection and image classification
